Draft Work Programmes for 2026–2027 Now Available

Published on: 26/08/2025

In recent weeks, the European Commission has published the draft Work Programmes for the final two years of Horizon Europe in the Comitology Register.

These drafts are intended to help prepare in advance for upcoming calls for proposals. However, it is important to note that they are provisional documents and may be subject to changes. Only the documents published on the EU Funding and Tenders Portal once officially adopted by the EC are legally binding. For this reason, topics, their descriptions or scope, as well as budgets or call opening and closing dates, may be adjusted before final approval.
