Projektu tipi

Type	Activities	Financing rate
RIA (Research and Innovation Actions)	Activities to establish new knowledge or to explore the feasibility of a new or improved technology, product, process, service or solution.	Up to 100%
IA (Innovation Actions)	Activities to produce plans and arrangements or designs for new, altered or improved products, processes or services.	*Up to 70%
CSA (Coordination and Support Actions)	Activities that contribute to the objectives of Horizon Europe. This excludes R&I activities, except for 'Widening participation and spreading excellence'.	Up to 100%

* the rate is 70 percent for profit-making legal entities and 100 percent for non-profit legal entities

ERA Policy Agenda

20 actions

- 1.Enable Open Science, including through the European Open Science Cloud (EOSC)
- 2.Propose an EU copyright and data legislative framework for research
- 3.Reform the Assessment System for research, researchers and institutions
- 4.Promote attractive research careers, talent circulation and mobility
- 5.Promote gender equality and foster inclusiveness
- 6.Protect academic freedom in Europe
- 7.Upgrade EU guidance for a better knowledge valorisation
- 8.Strengthen research infrastructures
- 9.Promote international cooperation
- 10.Make EU research and innovation missions and partnerships key contributors to the ERA
- 11.An ERA for green transformation
- 12.Accelerate the green/digital transition of Europe's key industrial ecosystems
- 13.Empower Higher Education Institutions
- 14.Bring Science closer to citizens
- 15.Build-up research and innovation ecosystems to improve excellence and competitiveness
- 16.Improve EU-wide access to excellence
- 17.Enhance public research institutions' strategic capacity
- 18.Support the development of EU countries' national processes for the ERA implementation
- 19.Establish an ERA monitoring system
- 20.Support research and innovation investments and reforms

ERA

The European Research Area (ERA) is the ambition to create a single, borderless market for research, innovation and technology across the EU.

Inspiring ERA projekts

European AI in Science Strategy – explained in simple terms

Why the strategy was created? Artificial intelligence (AI) is rapidly changing how science works. It can read thousands of research papers in seconds, automate lab experiments and analyze huge datasets. Thus, it helps scientists make discoveries faster than ever before. But Europe faced several challenges: To address these issues and

Discover ResearchComp: A tool to explore and develop research skills

Do you need to test your research skills? The European Commission has recently launched a new self-assessment tool based on ResearchComp, the European Competence Framework for Researchers. The tool helps researchers explore their skills and identify areas for further development. ResearchComp supports the assessment and growth of research competences across
