The MSCA PF project has different roles in the administration of the F&T application

This was true until 2026 ... changes in Guide for applicants that states «Proposals should be submitted by a representative of the beneficiary (e.g. supervisor of the proposal)»

MSCA	Fellow	<p>For Horizon Europe Marie Skłodowska Curie grants, it is the researcher (MSCA fellow) who applies for the grant and creates the application in the Portal (not the host institution which will become beneficiary).</p> <p>The researcher will therefore have access rights of Primary Coordinator Contact (PCoCo) and create the application with the organisation data of the host institution.</p>
	Supervisor	<p>When a successful application enters the grant preparation phase, Primary Coordinator Contact (PCoCo) role will be changed by us and given to the fellow's supervisor in the host organisation.</p> <p>Other persons can be given read-only access rights as Team Members.</p> <p>If you plan to implement the project at another institution than your regular employer, put the PIC of the future host institution.</p>

Support & Helpdesk

 In this step you can edit the Administrative Forms and upload the proposal and its annexes. You may return to this step from the 'My Proposals' section of the Funding & Tenders Portal. 

Submit your proposal as early in the process as possible - you can update and resubmit an improved version many times before the call closure.

Submitting a proposal will overwrite any previous versions of this same proposal - this process is irreversible.

Any changes made to the proposal will not be available to the European Commission service unless resubmitted before the call closure.

ERA Fellowships

Other Questions

4. Is there a secondment envisaged in Part B of this proposal?

Yes No

The following are not considered as secondments:- outgoing phase of a Global Fellowship- optional six-months placement in the non-academic sector- short visits or field work

Total duration of the secondments - up to 1/3 of total project duration (in months):

5 Do you wish to participate to the ERA Postdoctoral Fellowships and thus increase your chances of being funded?

Yes No

If you don't reply or if you maintain 'No' as your answer, be aware that your proposal will not benefit from an extra chance of being funded under the ERA Postdoctoral Fellowships in case it cannot be funded under the MSCA Postdoctoral Fellowships (MSCA-PF). A dedicated budget from the Work Programme "Widening participation and strengthening the European Research Area" has been set aside to fund those proposals. European Postdoctoral Fellowships proposals where the host organisation is located in an eligible widening country (according to the PIC number) but were not funded under MSCA-PF call due to a lack of budget, can be automatically duplicated into the ERA Postdoctoral Fellowships call. Eligible proposals will be duplicated into the ERA Postdoctoral Fellowships call only if you express your wish to do so. Your decision not to participate in the ERA Postdoctoral Fellowships will not affect your chances of being funded directly under the MSCA-PF call.

European Fellowships ONLY, and ONLY with the host organisation in Widening country
