ES Misijas – uzdevumu jomas

- **Es Misijas** ir jaunums **Apvārsnis Eiropa 2021.-2027.** programmā
- Konkrēti risinājumi būtiskām problēmām
- Noteikts mērķis **ierobežotā laika posmā (2030)**
- **Iedzīvotāju iesaiste** – Misiju ietvaros ir svarīga sadarbība ar iedzīvotājiem, lai veicinātu jaunu risinājumu un pieeju ieviešanu sabiedrībā
- Saskan ar **Eiropas Zaļo kursu, Eiropas Vēža uzveikšanas plānu, Klimatadaptācijas stratēģiju**, kā arī ar **Ilgtermiņa attīstības mērķiem**
- Katra no misijām tiek īstenota caur pasākumu kopumu – pētniecības projektiem, politikas pasākumiem vai likumdošanas iniciatīvām

[EU Missions in Horizon Europe - European Commission \(europa.eu\)](https://europeancommission.europa.eu)

cancer: improve the lives of more than 3 million people

make 150 regions and communities **climate resilient**

restore our **ocean and waters**

achieve 100 **climate-neutral and smart cities**

create 100 living labs and lighthouses to lead the transition towards **healthy soils**

Latvijas Zinātnes
padome

Vēzis: kopā ar Eiropas Vēža uzveikšanas plānu līdz 2030. gadam iecerēts uzlabot dzīvi vairāk nekā 3 miljoniem cilvēku, meklējot profilakses un ārstēšanas paņēmienus un risinājumus ilgākai un labākai dzīvei. Šī misija kopā ar Eiropas Vēža apkarošanas plānu nodrošinās labāku izpratni par vēzi, veicinās ātrāku diagnostiku un optimizētu ārstēšanu, kā arī tiks vērsta uz pacientu dzīves kvalitātes uzlabošanu vēža ārstēšanas laikā un pēc tās.

Pielāgošanās klimata pārmaiņām: tiks atbalstīti vismaz 150 Eiropas reģioni un kopienas, lai tie līdz 2030. gadam kļūtu klimatnoturīgi. Misijas fokuss vērsts uz atbalstu ES reģioniem, pilsētām un pašvaldībām, lai palīdzētu veidot noturību pret klimata pārmaiņu ietekmi.

Līdz 2030. gadam tiks izveidotas **100 klimatneitrālas un viedas pilsētas**. Misija iesaistīs pašvaldības, iedzīvotājus, uzņēmumus, investorus, kā arī valsts iestādes, lai nodrošinātu mērķa sasniegšanu. Izvēlētās pilsētas darbosies kā eksperimentu un inovāciju centri, lai visas Eiropas pilsētas varētu sekot šim piemēram.

Augsnes kurss Eiropai: 100 “dzīvās laboratorijas” un “bākas”, kas palīdzēs līdz 2030. gadam panākt veselīgas augsnes. Izveidojot efektīvu tīklu ar laboratorijām un bākām, misijas ietvaros ir plānots rast zināšanas, pārbaudīt risinājumus un demonstrēt to vērtību reālos apstākļos.

Līdz 2030. gadam tiks **atjaunots okeānu un ūdeņu stāvoklis**, apvienojot pētniecību un inovācijas, iedzīvotāju iesaisti un investīcijas.

MISIJAS «RESTORE OUR OCEAN & WATERS» AKTUALITĀTES

#EUmissions
#HorizonEU
#MissionOcean

EU MISSIONS
RESTORE OUR OCEAN & WATERS

EU MISSIONS

RESTORE OUR OCEAN AND WATERS

Konkrēti asāko problēmu risinājumi

PROBLĒMAS

Cilvēka radītas pārmaiņas nopietni apdraud mūsu okeānu un ūdeņus, izraisot:

- piesārņojumu,
- bioloģiskās daudzveidības izzušanu,
- ārkārtējus laika apstākļus – plūdus, sausumu un karstuma uzplūdus.

IESPĒJAS

Klimatneitralitāte - okeāns un ūdeņi kā galvenie oglekļa piesaistītāji ir ļoti svarīgi, mums pielāgojoties klimata pārmaiņām.

Bioloģiskā daudzveidība - okeāns un ūdeņi ir bagātīgas sugu daudzveidības vide.

Saimnieciskā labklājība - aplēsts, ka līdz 2030. gadam okeāns ģenerēs 2,5 triljonus eiro gadā.

MĒRĶIS

Līdz 2030. gadam atjaunot mūsu okeānu un ūdeņus

Mission objectives and targets

Restore our Ocean and Waters by 2030

PROTECT AND RESTORE MARINE AND FRESHWATERS ECOSYSTEMS AND BIODIVERSITY

- Protect at least 30% and strictly protect 10% EU's sea areas
- Restore 25.000 km free flowing rivers
- Marine nature restoration targets (incl. degraded seabeds, coastal ecosystems)

PREVENT AND ELIMINATE POLLUTION OF OUR OCEANS, SEAS AND WATERS

- Reduce by at least 50% plastic litter
- Reduce by at least 30% microplastics
- Reduce by at least 50% nutrient losses, chemical pesticides

MAKE THE BLUE ECONOMY CARBON- NEUTRAL AND CIRCULAR

- Net zero maritime emissions
- Zero carbon aquaculture,
- Low carbon multipurpose use of marine space

ENABLERS

Digital Ocean and Waters Knowledge system

Public mobilization and engagement

Latvijas Zinātnes
padome

DIGITAL TWIN OCEAN

- Labāka izpratne par okeānu, tajā notiekošajiem procesiem
- Iespēja simulēt dažādus scenārijus
- Iespēja paredzēt izmaiņas, atkarībā no dažādiem faktoriem
- Ļauj pieņemt iegūtajā informācijā balstītus lēmumus

Latvijas Zinātnes
padome

Okeānu misijas harta

Endorse the Mission Charter

We are calling on Member States, regions and a wide range of stakeholders to endorse the Mission Charter and pledge actions that will contribute to the successful implementation of Mission Ocean and Waters and its Lighthouses.

Mission Ocean and Waters - European Commission
([europa.eu](https://europea.eu))

Pievienoties hartai

EUROPEAN UNION

EU MISSIONS

RESTORE OUR OCEAN AND WATERS

- **The Mission will be implemented in two phases:**

- In the first **‘development and piloting’ phase (2022-2025)**, research and innovation will lay the foundations for implementing the three Mission objectives and enabling actions, paving the way to further citizens participation and engagement. Research and innovation activities will support transformative and innovative solutions to be tested, piloted and validated. Enabling activities will generate new knowledge, observation and monitoring data.
- In the second **‘deployment and upscaling’ phase (2026-2030)**, the solutions will be further deployed, replicated and scaled up.

Darba programma 2025

pašlaik ir izstrādes procesā, pieejama melnraksta (*draft*) versija

Proposed WP structure and main features

- **Draft WP 2025:** 8 topics + 3 other actions
- **Indicative budget EUR 120.09 million**
- **Two groups of topics:**
 1. Thematic topics following the Mission Objectives - focus on pollution and Blue Economy + Blue Parks and DTO
 2. Topics directed at supporting communities + Coordination and Support Actions in the basin Lighthouses
- **Other Actions**
 1. Services to Communities to support the achievement of the objectives of the Mission
 2. Ocean Observation Platform
 3. Mission Ocean and Waters conference under the DK presidency

MISIJAS «SOIL DEAL FOR EUROPE» AKTUALITĀTES

SOIL DEAL FOR EUROPE

WHY A MISSION ON SOIL

Life on Earth depends on healthy soils: they are the basis of our food and provide other vital ecosystem services.

About 60%² of soils in Europe are considered to be unhealthy due to current management practices, pollution, urbanisation and the effects of climate change.

Examples of the extent of soil degradation in the EU:

50%

of peatlands are drained and losing carbon – this is contributing to the climate crisis

24%

of land is affected by unsustainable water erosion rates

2.8 million

potentially contaminated sites posing major health risks

THE MISSION'S OVERALL GOAL

Create a network of 100 living labs and lighthouses to lead the transition towards healthy soils by 2030

THE MISSION'S SPECIFIC OBJECTIVES

01

Reduce desertification

05

Prevent erosion

02

Conserve soil organic carbon stocks

06

Improve soil structure to enhance soil biodiversity

03

Stop soil sealing and increase re-use of urban soils

07

Reduce the EU global footprint on soils

04

Reduce soil pollution and enhance restoration

08

Improve soil literacy in society

Latvijas Zinātnes
padome

Living labs are a core element of the Mission and key to accelerate the adoption of sustainable practices for soil management which are adapted to local conditions. Living Labs are real-life sites in rural or urban areas in which people from various sectors and backgrounds experiment and test solutions in a co-creative manner. Each living lab is composed of a group of sites (e.g. farms, forest stands, urban green areas) working together at regional or sub-regional level.

Lighthouses are individual sites of exemplary performance with regard to a certain practice. The network of 100 living labs and lighthouses will be built up gradually, following call for proposals under the Mission's Horizon Europe Work Programmes - Search [Funding & Tenders \(europa.eu\)](https://europea.eu)

Activities under the Mission's **four building blocks** address soil health and the drivers of soil health.
